#### To improve the mental health and wellbeing of targeted PP pupils

A limited number of PP pupils have struggled with mental health and wellbeing issues. Identified pupils (by the Deputy Headteacher working alongside the Pastoral Mentor) have accessed a Play Therapist to enable them to better regulate their emotions and behaviour choices. A list of pupils have also been identified to see the Play Therapist over the course of this academic year.

#### More able pupils are supported to narrow the gap between PP and Non-PP in reading, writing and maths

More able continues to be a focus for school as we develop our approach to adaptive teaching.

Moderation from subject leaders is beginning to demonstrate more opportunities to develop greater depth (step for depth) activities which will increase the % of greater depth across school in R, W, M and the wider curriculum. It is too early in the academic year and with the changes made for pupils accessing greater depth activities to make an accurate judgement yet.

#### SEND PP pupils achieve in line with SEND national averages in reading, writing and maths

	SEND Reading		SEND Writing		SEND Maths	
	School	National	School	National	School	National
KS1 SEND	17% (3/18)	28%	0%	19%	0%	33%
KS2 SEND	16% (6/38)	39%	13% (5/38)	29%	16% (6/38)	36%

#### PP pupils access a range of opportunities and experiences that they may not access outside of school

During Autumn Term, all year groups attended a school trip or had an external visitor into school to supplement the school curriculum offer.

After school provision takes place on a Tues-Thurs evening after school. In autumn term these were not particularly well attended. For spring term, the plan is to make extra curricular activities free of charge.
